

Our President Bill Chambers has just advised that his wife Linda, who is also the President of the Ladies Auxiliary, was injured due to a fall from a ladder while replacing a battery in a smoke alarm. The applicable text from Bill's email regarding this unfortunate accident is posted below.

The Golden Eagles sends its best wishes to Linda for a complete and speedy recovery.

**Text from Bill's email:**

"Events have taken a surreal twist that compounds things for Linda and me. Tuesday, Linda and I had a friendly debate about the wisdom of old people climbing ladders of any height. In a compelling way, Linda proved my point by deciding to change a malfunctioning smoke alarm battery without help. I am as distraught as one could be upon discovering my sweetheart of 42 years lying on the floor next to a bed rail, in awful pain. She has fractured five (yes, 5) ribs and is in her third day in ICU at the excellent new Methodist Hospital that opened four days ago in The Woodlands. My daughters, in-laws and good friends have all eased our pain by providing meals, driving and other assistance.

Right now we are moving one day at a time. Thanks in advance for your prayers and support."
