

The August 2021 digital issue of the Golden Eagles magazine, The Golden Contrails, has been posted to the Golden Eagles website, www.thegoldeneagles.org, in the Contrails section for your reading pleasure.

The password for accessing certain protected features of the website, the member rosters, the Golden Contrails magazine, the archived blast emails and the officer documents, has been changed to **landing**. This password is not needed to access the website itself, only the protected features mentioned above.

Many thanks to our President and Magazine Editor, Gary Small, for the excellent job of putting together another very entertaining and informative issue of our magazine. Our magazine relies on our members for much of its content; and we appreciate the contributions from some of our members of some very entertaining and interesting stories in the current issue.

Thanks also to our Treasurer and Webmaster Bruce Sprague for posting the current issue of the magazine to the Golden Eagles website. Bruce does a masterful job of maintaining our website, so take a little time and browse through it for some interesting information. It is updated regularly and you may find some new material of which you were unaware.

The next Golden Contrails magazine will be published in December, 2021, and a new password will be issued at that time.
