

Members of The Golden Eagles:

Two Golden Eagles members, Captain Paul Curs and Captain Kent Johnson, have each shared a video that truly represents the meaning of our celebration of Memorial Day. The link to the video is posted below so that you can view it and remember the sacrifices that have been made by so many to protect the freedoms we all enjoy today. The Golden Eagles Executive Committee felt that as we celebrate the memory of those who have made such great sacrifices this weekend, it would be proper to pause and truly give thanks to all of those who have served to defend our country and in particular to those who paid the ultimate price in doing so. Hopefully this video will help our members to remember what Memorial Day is really all about and to encourage them to share that message with their friends and families.

Thanks to Paul and Kent, both veterans, for sharing this meaningful video with The Golden Eagles, and thanks to all our members who have served in the Armed Forces of the United States for their service.
