

The sad news that former Continental/Texas International Captain Robert Cissna took his last flight West yesterday morning, Dec 8, was received from Golden Eagles member David Hughes. David's email is posted below.

The Golden Eagles wishes Captain Cissna Godspeed on his final flight West and sends its condolences to his family.

Additional information will be provided as it is received.

Dave,

It is with a sad heart that retired Continental/Texas International captain Robert Cissna passed away this morning. He was not a Golden Eagles member.

He succumbed this morning from COPD and congestive heart failure that he had been battling for the past six weeks in Memorial Hermann in the Woodlands and Houston.

Bob suffered a severe heart attack just prior to turning 60, and had to medically retire. He turned 80 years young two months ago today.
