

Captain Thomas E. Russell

Occasionally we are made aware of the passing of a former

Continental pilot who flew West several months in the past. Such is the case with the sad news that former Continental Captain Tom Russell flew West in 2021. We have no details other than his passing, and if anyone has additional information about his demise that they would care to share with the Golden Eagles membership, please do so.

The Golden Eagles thanks Golden Eagles member Captain Lew Aaronson for providing this information. We send belated condolences to Tom's family for their loss and hope that they are finding peace and comfort as they cherish the memory of their loved one.
