

The sad news that Golden Eagles member and former Continental Captain Larry Battersby took his last flight west has been provided to us by Golden Eagles member Captain Jay Panarello. Larry reportedly had been ill with Pulmonary Fibrosis and succumbed to the disease on June 27, 2021. Larry was 73 when he passed.

The Golden Eagles sends condolences to Larry`s family and wishes them peace and comfort as they bid farewell to their loved one. We wish for Larry favorable winds, smooth air and clear skies for his final flight West. Godspeed Captain, and rest in peace. You will be missed.

An obituary is being prepared through the Parker and Elizabeth Funeral Home and Crematory in Elizabeth, CO, but has not been published at this time. In the interim, we wanted to advise the Golden Eagles members and others who knew and flew with Larry of his passing. The obituary will be shared with our members when it is received.
