

Golden Eagles member and former Houston Chief Pilot Captain Bryce Chapin has advised us that Reba, his loving wife of 62 years, passed away on Tuesday, June 15, 2021. We are saddened to learn of Reba's death and wish to inform our members who worked with Bryce over the years of his loss.

On a personal note, Bryce was in my new hire class in November of 1966, and I became good friends with him and his wife Reba during that time and the following years. Reba was a classy lady and her many friends loved her for her kindness and her pleasant personality. She will be missed by all who knew her.

Reba was born on October 17, 1936 and was 84 years old when she succumbed to the effects of Parkinson's Disease. She had been conducting a noble battle with the illness for more than 10 years, and she spent the last 51 days of her struggle in hospice care.

There are no services planned at this time and the family intends to have a cremation with a private service at a later date.

The Golden Eagles sends its sincere condolences to Captain Chapin and his family and wishes for them peace and comfort as they say goodbye to their loved one. Godspeed on your journey home Mrs. Chapin, and may you rest in peace.
