

This is a copy of an email received from Golden Eagles member Dorothy Clegg regarding the CAL LC 171 LTD issue. We have received numerous inquiries about the status of this issue and we are providing this information for the benefit of those members affected.

***Email from Dorothy Clegg:***

Aloha

Here is the [CAL LTD website](#). As you can well imagine this is confidential.

***Here is the FB post regarding this website***

Very successful day at LC 171. [OBJ] Our resolution was overwhelmingly passed.[OBJ]

If you are a plan participant (Cal pilot was a potential claim) go

to [www.calltd.org](http://www.calltd.org) and register. Each registration will be hand verified so be patient awaiting your return email with secure login approval. Some of the questions you may not be able to answer at this time. That's OK. Once inside, you can read a letter explaining the potential path forward. Just do what you can/is required. Dates are not required at this time. Security is tight. The system auto combs the registrations every 30 seconds and flags fake applications. Every flag is sent via text to the system administrator who then hand-verifies. if you get flagged because somehow we missed your name on a list, you can reach out to [info@calltd.org](mailto:info@calltd.org) Please, however, don't reach out until after you've been flagged. 99.9% of you will likely slide right through the registration process if you answer the questions. That website will be the source for official communications. This Facebook page is merely for unofficial, nonconfidential discussions.

If anyone has a seniority list prior to the merger, please send it to [info@calltd.org](mailto:info@calltd.org)

This is the first step of the process to get our money returned.

Thanks for helping spread the word!

Everyone needs to get involved, to get this solved
