

This sad news regarding the health status of Golden Eagles member Captain Chester James was just received from Golden Eagles member Marty Noonan. Chester is highly thought of and respected by the CAL pilot group and certainly all will be saddened by this news. Our thoughts and prayers go out to Chester and his family and hope they can find peace and comfort at this very difficult time. Marty's email and the notice from Chester's friend, John Irwin, is posted below.

Dave,

I just got this email update on Chester James from his college roommate, John Irwin, who was also a USAF pilot and commercial pilot. Please post to the Golden Eagles, since Chester is held in high regard by most CAL pilots.

Thanks,

Marty

Hi guys,

I got word that Chester James is in Hospice care in Ft Collins, CO. Advanced Alzheimer's and does not recognize people and refuses to eat. One month ago, Larry Stroud, our fraternity brother visited Chester and he was introducing him to other patients in this care facility. Sadly his wife Kathy has moved to Steamboat Springs and has signed everything over to their son, Tanner. Our thoughts and prayers are with Chester.

John Irwin
